

## Criteria for Evaluating Web Sites for Use on Interactive Whiteboards

### **Interactive**

Web sites provide students with opportunities to interact with a variety of tools in order to develop knowledge, understanding and skills.

### **Content-Rich**

Web sites present comprehensive and relevant learning experiences that focus on major concepts.

### **Age-Appropriate**

Activities, vocabulary and graphics are at the right level for the chronological age of the students.

### **User-Friendly**

Web sites are easy for students to navigate and use.

### **Curriculum-Aligned**

Web sites address subject area content, fit with lesson plans and align with New York State Learning Standards.
