

Interactive

Design SMART Notebook lessons that involve interactions between students, teacher and students, the learning environment and the curriculum.

Motivational

Design SMART Notebook lessons that tap students' desire to participate in learning experiences.

Content-Rich

Design comprehensive and relevant SMART Notebook lessons that address the subject area content, focus on major concepts and align with New York State Learning Standards.

Multimedia

Design SMART Notebook lessons that include multimedia elements - text, graphics, photographs, animation, audio and video.

Engaging

Design SMART Notebook lessons that are challenging, complex, authentic and encourage students to be self-directed.

Multiple Modalities

Design SMART Notebook lessons that address the three basic learning modalities: visual (learning by seeing), auditory (learning by hearing) and kinesthetic (learning by doing).

Thinking Skills

Design SMART Notebook lessons that integrate complex, higher-order thinking skills (application, analysis, synthesis and evaluation) and that require the manipulation, not just the retention of information.

Multi-Dimensional

Design SMART Notebook lessons that have numerous aspects or attributes such as learning activities, parts or stages and resources.
